

We just got back from Imaging USA, and it was great to see so many customers, friends, vendors, and partners in the industry. The dedication, enthusiasm and professionalism that you all bring to the table is inspiring. It makes our busy production seasons worthwhile when we get to see and visit with you. It is an honor to share in the education and trade show events and to learn and discuss ways to continue to build and work together. This was just the first in a series of conferences H&H will attend and sponsor throughout the year. If we missed you at Imaging, we hope to see you at another event during the year, and get the chance to say thank you. We appreciate each and every one of you!

customer service

gainsborough mount board

Attention Gainsborough users. The manufacturer of the Gainsborough mount board has notified us they will no longer produce this product. As the inventory of our boards are depleted, we will no longer be able to offer this mounting option. Please look at our other mount offerings to find another substrate that will take care of your client's needs. Our customer service team is happy to answer any questions you may have – give us a call!

new 10x14 torn edge print frame styles

Available in both horizontal and vertical, our new [10x14 Torn Edge Print Frames](#) are sure to be a hit with your customers! Five new frame styles, with coordinating double mats, feature a torn edge print subtly floated from the background to give depth and then protected by glass. Each print is an 8x12 image printed on watercolor paper with a 1" border and hand torn edge.

admin and yearbook exports

When you take advantage of our new yearbook or admin export options to deliver files to your schools, there is now a longer file retention period in

[Subscribe](#) to our email list.

ShareFile. Previously, you were allowed to access files for 30 days. That has been changed to 90 days, effective immediately.

We still recommend downloading these files and archiving them on your own system as well. We also recommend that you use a specific email for the export deliveries that everyone in the studio has access to.

key fob changes

Beginning March 1, our key fobs will no longer be produced on PVC stock. Instead, they will be made using a gloss laminated paper stock. We believe this change will provide a high quality product with better color and edge printing accuracy.

Key fobs are ordered in our hhschools and hhsports software and are available in a variety of different template themes.

employee highlight

Mathew Gibson

Our digital press department at H&H Color Lab is an anchor for our business. Its staff works closely with other departments to ensure that your products are of the highest quality and completed on time.

We would like for you to meet Mathew Gibson! He works as a Press Operator on the Press Production Team. This position operates the digital presses that produce all press products for Schools, Sports, and Portrait such as school flyers, trader cards, coffee table books and greeting cards.
