

Making your list and checking it twice

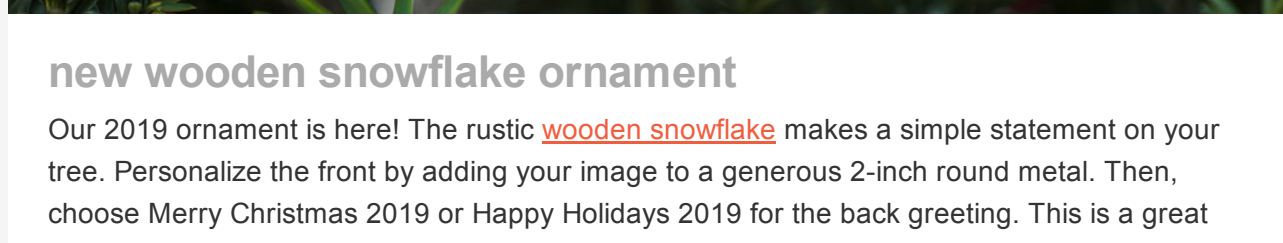

This time of year, we seem to work at warp speed. I don't know about you, but we have to remind ourselves that it is a marathon and not a sprint. We know how important your holiday orders are for your customers and your bottom line. That is why we always make sure we have plenty of extra staff on hand to fulfill your orders this time of year! All orders are completed in regular service time, but due to shipping times, you may need a longer lead time to insure your order arrives to you before Christmas. Be sure to check out our [holiday ordering deadlines](#) that take these shipping schedules into consideration. Please don't hesitate to reach out to us with any concerns, questions, or suggestions. We hope you enjoy a little down time towards the end of the month during the holidays. From our staff and family to yours, we wish you a wonderful Christmas and a Happy New Year!

MacOS 10.15 Catalina update

H&H Velocity and hstudio are now Catalina compatible. hhschools & hhsports - H&H development team is actively testing hhschools and hhsports but we do NOT recommend upgrading to the MacOS Catalina operating system. We also recommend any new Apple computers purchased this fall for the use of any of the hh apps use OSX 10.10 Yosemite to 10.14 Mojave. If you want to run hhschools or hhsports at this time.
