ID CARDS

STUDIO BACKGROUND TEXT FIELDS

The four text fields circled in yellow on each ID card example are available for personalization.

STATIC TEXT

Static text is the same on all ID cards. You can enter static text, such as "2015" or "Central Elementary School", which will appear on each ID card in that text field.

DYNAMIC TEXT

You can also choose to use dynamic text fields, such as "<FirstName>" or "<Grade>", which will fill in from the data you provide from the school and will be unique on each ID Card. If you want to use a dynamic text field, it must be typed to include <> on either side of the text as shown below. It is also possible to create a combination of static and dynamic text like these examples:

REQUESTED DATA:	LOOKS LIKE THIS WHEN PRINTED:
<Teacher>	Ms. Gibson
Grade: <Grade>	Grade: 12
Name: <LastName>, <FirstName>	Name: Smith, Lynn
