

# MAC SECURITY OVERRIDES

## OS 10.8 AND AFTER

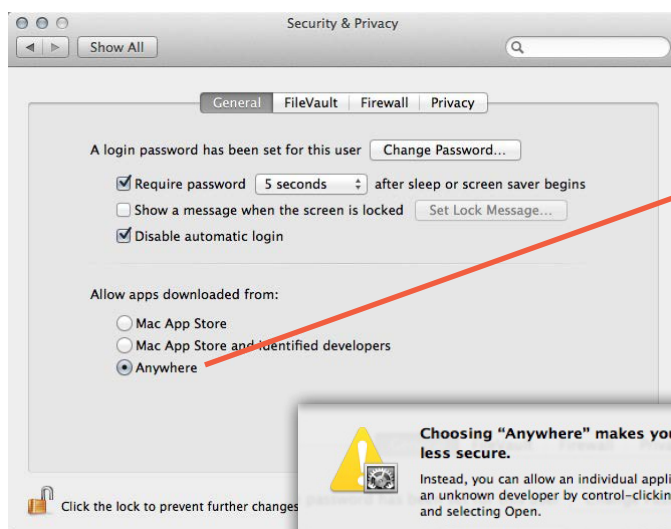

OS 10.8 and after (Mountain Lion & Mavericks) have new security settings. To install applications that are not recognized through the app store, there are some settings to change.

1. Go to your System Preferences and open Security & Privacy.

2. Click the lock to allow changes to be made.

3. Select the "Anywhere" radio button.

4. Click the "Allow from Anywhere" button.
